

The Peacock Etui with Jenny Adin-Christie

YOUR MATERIALS LIST

You will need to bring the following equipment with you to allow you to complete your project. Please note that any of the following items may be ordered for purchase in class via Jenny's website:

www.jennyadin-christieembroidery.com

Jenny is pleased to provide a 10% discount code which you can use prior to the class to order equipment and threads etc (not applicable to additional kits, slate frames and hand-made items). This code also gives you free delivery since the items will be brought to class for you. The code is only valid until 10th August to give time to prepare your items before the class. The code excludes some items such as hand-made tools, accessories and kits.

Your code is: BATH2022 (please use capital letters)

If you have any queries, please email: Jenny.adinchristie@gmail.com. Tel: 0781 491 9498

- The Peacock Etui: £195
- Glass Dome £78
- Mossy Hillock kit £82
- Wooden base for the Hillock kit without tape measure £45

Frames:

- You will need a 6in AND an 8in deep edged embroidery hoop. BOTH rings of the hoops must be pre-bound with cotton tape. A larger hoop will not be suitable.
- You will also need some form of stand to support your hoop(s), allowing both hands to be free for working.

Other equipment:

- Fine, sharp embroidery scissors. Curved tip scissors are very useful.
- A second pair of fine tipped scissors for cutting metal threads. Curved tip scissors are again very useful. Those scissors currently being sold as 'goldwork scissors' are not ideal!!!! Wire cutters are not suitable for this.
- Scissors suitable for cutting fabric.
- A stiletto/awl, or a similar fine, sharp tipped tool.
- A mellor, or similar laying tool, eg. A plastic knitting needle tip, or very large tapestry needle will suffice
- Tweezers
- A small 'velvet board'. This can be a lid/tray such as a jam jar lid lined with velvet, for use in cutting metal threads. The lids are very effective as they can be pinned onto your embroidery hoop. If you bring a pair of magnets, you can use these to attach your velvet tray to your hoop.
- A screwdriver for tightening your ring frame.
- Fine, small pins

Lights and magnifiers:

- You may like to bring your own magnification and/or light, plus extension cable, to use in class.
- If you would like to loan one of Jenny's magnifier lamps for use in class, please confirm by email asap.
